

09/08/2010 CERES Data Management Team Meeting

UPCOMING EVENTS

Science Team Meeting – September 13 – 16 in Paris, France.

REMINDERS

For SA support,

1. If you are sure that you have an ODIN issue, send a help ticket to SDdesktop@asdsun.larc.nasa.gov.
2. If you have a non-ODIN issue OR are unsure that it is an ODIN issue, send a help ticket to help@asdsun.larc.nasa.gov.
3. If you don't hear back from help@asdsun.larc.nasa.gov within 1-2 days, send email to Bob Grandle and include the original help ticket.
4. If you have an ODIN password issue, call x47777.

Please use the DMT alias (ceres-dmt@lists.nasa.gov) for emails that pertain to the entire DMT. There is also a DMTM alias (ceres-dmtm@lists.nasa.gov) that includes those who attend the DMTM.

Please note if activity is for Edition2 or Edition3 in status reports.

Raise visibility of new files as soon as possible so changes can be made to ANGe. A few weeks notice would be nice; put it in your DMTM status report.

NOTES FROM THE PREVIOUS MEETING

(Held 08/25/2010 at 10:00 a.m. in Room 2316 at the ASDC)

Meeting Notes

No comments on the notes from the last meeting.

Announcements

Successfully completed the Kaizen (August 23 & 24).

ASDC and SCF

SIT

Jonathan will send an email for promoting Inversion 786 for Terra; Aqua will be promoted later.

Inversion 782 needs to be promoted on *magneto* so it can run there when needed.

Production

No updates to report.

User Services

Lindsay says he's clear on the Edition3 file names now.

Systems

Last of filesystem checks completed; bringing up *AMI*; best estimate for ANGe and *AMI* being back up – late today, early tomorrow.

warlock maintenance contract expires end of August.

PRs

Date for ERBE-like ValR14s has changed from 2007 to 2009.

SEC

No updates.

CM

The delivery schedules were discussed.

There were 2 SCCRs reviewed today – Clouds 802 and Synoptic SARB 803. There were no issues/concerns identified for these SCCRs.

Subsystem Status

Toolkit Issues

No new updates.

Instrument

Chris said that the IBM C++ compiler provides better performance than the Gnu C++ compiler.

The IBM compiler has been purchased and will be available soon. All C-code should be recompiled; SEC should investigate if Toolkit should also be recompiled when the IBM compiler is available.

ERBE-like

Updating PGE CER2.4P1 to run on *AMI*.

Clouds

No updates to report.

Convolution

Will be meeting with Fred on surface albedo issue.

Inversion

No updates to report.

SARB

No updates to report.

TISA Averaging

No updates to report.

TISA Gridding & GGEO

Since Raja is out of town include Betty on any problem reports for TISA Gridding 789.

CERESlib

No updates.

DM Projects

Code Optimization

ODU on hold for now.

Production Processing Database/Automation

Carla and Lisa need to meet with Maria to discuss some details.

Ordering Tool

Everything coming along; should be on new servers by mid-September.

NPP Issues

Denise and Dale will need to be available on September 10 for SDS functional tests.

Meeting ended at 11:15 a. m.
